
MATTHEW EGBEDOKUN

FRONTEND ENGINEER

Lagos, 100001 Lagos ♦ +2349031849620 ♦ jimatt121@gmail.com

PERSONAL SUMMARY

I'm a frontend developer passionate about creating beautiful, functional, and user-friendly web experiences. I turn designs into interactive, high-performing applications using modern tools like React, Next.js, and Tailwind CSS. I enjoy solving complex problems, optimizing performance, and continuously learning to improve user interaction with the web. Whether working independently or on a team, I bring a problem-solving mindset, attention to detail, and a drive to deliver clean, scalable code. Skilled in building dynamic, responsive web applications with React, Tailwind CSS, and JavaScript, I'm known for my collaborative spirit and delivering results through thoughtful design solutions.

| • Typescript | • React |
| • Nextjs | • Redux |
| • Git version control | • Github |
| • Bootstrap framework | • Team leadership |
| • TanStack Query | • Tailwind CSS |

WORK HISTORY

Front-End Developer, 2023 - Current

Kundakids – Lagos, Lagos

Independently developed three applications: Kundakids App, Literacy App, and an Admin Dashboard.

- **Kundakids App**: Built an engaging platform for kids to read stories, listen to audiobooks, and watch videos that teach African languages and culture.
- **Literacy App**: Designed a gamified learning experience where kids learn letter sounds and names through interactive activities, drag-and-drop games, and a mascot guide that makes literacy fun.

- **Admin Dashboard:** Engineered a robust platform with multiple modules including Analytics, User Management, Content Management, Quiz, Avatar, and Permission Settings, enabling educators to upload content, manage users, organize learning paths, and track learner progress across both apps.

Leveraged React, Typescript and Tailwind CSS to build scalable, high-performance, and responsive interfaces, integrating features such as audio playback, video streaming, and accessibility best practices.

Front-End Web Developer, 2024 - Current

Monitag Technologies – Lagos

Successfully developed and launched two fully responsive company websites, improving brand visibility and user engagement. Collaborated with designers to deliver user-friendly interfaces, optimized site performance for 35% faster load times, and applied SEO best practices that boosted organic search visibility by 30%. Maintained a clean, scalable codebase to support future growth and team collaboration.

Front-End Developer, 2022 - 2023

Exolve Technologies

Contributed to the successful development of the company's main web application by building responsive, high-performance user interfaces with React and Tailwind CSS. Collaborated with the frontend and backend teams to translate product requirements into seamless user experiences, integrate RESTful APIs, and ensure cross-browser compatibility. Improved site architecture and page load times, actively participating in sprints and code reviews to enhance code quality and scalability.

Frontend Developer, 2020 - 2021

Mira Technologies

Collaborated with the frontend team to develop responsive web applications, playing a key role in building user interfaces for MriaHrpo (Hospital Management System) and two Microfinance Management Systems, SysBanker and HowToGrow. Translated UI/UX designs into clean, reusable code, creating intuitive tools that improved operational efficiency in healthcare and financial services. Built and maintained user interfaces for both internal tools and affiliate platforms to streamline business processes and user tracking.
